

Extremely compact,
astonishingly versatile

RDP7

Card Reader & USB Hub

If you own a cell phone, a PDA, a digital camera, you are probably juggling kinds of memory cards among the group of them. Or you may feel like you never have enough USB ports, as they are all occupied by USB mouse, printers, scanners, external hard drives, etc. Relax. Transcend now offers a perfect solution—the multi-function RDP7 USB card reader that is also a USB hub.

With three integrated USB ports, the RDP7 card reader not only bridges the gap between your computer and digital gadgets, but also allows you to add multiple USB 2.0 peripherals. The RDP7 has a built-in USB cable that brings conveniences to travel without messy USB wires. Inheriting the advantages of Transcend's current card readers, the RDP7 supports today's most popular memory cards and includes a useful Photo Recovery Tool, offering unmatched security and versatility.

Built-in **USB cable**
& **3 USB ports**
